

VIVID *audio*®

GIYA G1 SERIES 2

The original product,
GIYA G1 started it all.

Designed by the
renowned acoustic
engineer Laurence
Dickie, the GIYA G1
remains the reference
standard for all Vivid
Audio loudspeakers,
and the entire
audiophile world.

Pleased to meet you.

GIYA G1 SERIES 2

INSPIRED BY NATURE. PERFECTED BY ENGINEERS

Nature dislikes straight lines almost as much as she abhors a vacuum. She knows that sound travels much more smoothly over curved surfaces; hence the shape of your own ear. Music you've known and loved for years takes on new life, depth and clarity; it's like hearing it for the first time, reminding you why you fell in love with it.

The new D26 tweeter and D50 mid driver both benefit from our patented Tapered Tube loading. This effectively eliminates cabinet resonances, giving you absolutely clarity and transparency through the high and mid frequencies. Underpinning the performance is the massive bass provided by our paired, reaction-cancelling, C225 drivers. Perfectly accurate and free of blurring muddiness.

Specification

Configuration	4-way, 5 driver
Cabinet material	Glass reinforced balsa cored sandwich composite
Cabinet colour	Piano Black, Pearl White, Oyster Matte
Bespoke cabinet colour	Bespoke colour options available on request
Drive units	HF: D26 – 1" metal dome unit with Tapered Tube loading Mid: D50 – 2" metal dome unit with Tapered Tube loading Lower-mid: C125s - 5" alloy dome unit (equivalent to 7" driver) with Tapered Tube loading Bass: C225 – 2 x 8.9" metal cone units (equivalent to 11" drivers) with short-coil long-gap motor design
Bass loading	Exponentially tapered tube enhanced bass reflex
Sensitivity	91 dB @ 2.83 VRMS at 3.3' on axis
Nominal impedance (Ω)	6 nominal, 4 minimum, low reactance
Frequency range (Hz)	-6 dB points: 25 – 36,000
First D26 Break Up mode (Hz)	44,000
Frequency response (Hz)	29 – 33,000 +/- 2 dB on reference
Harmonic distortion (2nd and 3rd harmonics)	< 0.5% over frequency range
Cross over frequencies (Hz)	220 - 880 - 3,500
Power handling (music program)	800 watts rms
Loudspeaker dimensions	66,9" (H) x 17,3" (W) x 32,3" (D)
Net weight	163,1 lbs (internal crossover) - 151,2 lbs (external crossover)
