Welcome to the Vivid Audio GIYA G1 Spirit.

GIYA G1 SPIRIT

WELCOME TO THE CONTINUOUS QUEST FOR PERFECTION

It has been said that improving the G1 would be like gilding a lily, there's no question that the bar has been set very high. Nevertheless, the driving spirit behind Vivid Audio is that if there is any hint that an improvement is possible, it will be pursued, tested, perfected and implemented.

When reviewing improvements it resulted in the opportunity to reconsider multiple aspects of the design. Including a new aspect to the exterior shell with longer wider port for increased linear LF output, new C225-100 bass drivers, Lower-mid driver C125-75 with carbon rings, new chassis and CNC machined sandwich composite stiffening braces.
